

ADEGOKE ADEWOYE

Frontend software developer

Lagos

degokeadewoye@gmail.com

0908 229 0318

I am interested in building and bringing ideas to life, continuous learning and improvement of my skills and knowledge, contributing to society and making a difference with my work.

WORK EXPERIENCE

Full stack developer

Freelance and personal projects

Present

i have been building bot front end and fullstack personal projects, and ppair pprograming in my free time, which includes ui components, landing pages, javascript applications, a portfolio website and many more projects that have given me experience in transforming user interface designs into code, consuming third party api's, witing and debugging code and improving my skills knowledge and ability to work in a team..

Frontend developer

plugged team

2020 to 2020

i was the front end developer for a team, and built a web app that could connect hospitals and patients with their health records.
